

Activity bag 1

Pick a card.

Use the tweezers to pick up the right colour ball to match the cards.

Put the balls into the spaces on the big caterpillar.

Change cards and repeat.

Use the magnetic shapes to create your own design.

Can you make some of the shapes in the booklet?

Which shape is the hardest to make?

Take the two wooden rods out and hold one in each hand. Can you trace the trail all the way to the end? Try it using one rod with your right hand, then again with your left. Was it easy? Now try it with your eyes closed.

Draw away using the blue pen at the side. Only use this pen. What can you draw? What can you write? Can you colour the whole thing?

These links connect together. How long can you make it? Can you put all the same colours together? You could make a 'no entry' barrier with them.

A springer. Put this on your arm to make a sleeve. Can you make it walk down the stairs? Gently fold over the spring onto the next step and it should start walking- ask a grown up to help you. Enjoy moving the spring up and down in your hands.

Activity Bag 2

Use the magnetic pen to drag the balls into the right colour. Keep the board straight or the balls will mix up again!

Clip the pieces together to make objects. Can you make one long line with them all? Can you clip them together in colour order?

Sort these pop tubes into colour and put them in the right colour tray. Can you connect the tubes together? Can you gently pull them apart and push them back together?

This pin board is lots of fun! Put your hand/arm in it then look through the Perspex on the front. What other shapes can you make in it?

This man moves! Can you use the cards to make him make the same moves? Can you make that move?

Activity Bag 3

These items roll!

Use them under your foot, roll them down your arms and legs. What do they feel like?

These items roll! Roll them on your head, face, legs and arms. Do you like it? Which one is your favourite?

Use the sticks and circles to copy the patterns on the cards. Use the sticks to make some patterns. Can you make a house?

A Torch- turn the light out and shine around the room. Open a door slightly and see if there are any shadows

What can you make with these bricks?
Can you put them in colour order? Can you make towers using each colour?

Activity Bag 4

These stick together- what can you make?

A Torch- turn the light out and shine around the room. Open a door slightly and see if there are any shadows?
